

 **Thank you for your interest in electric vehicles and public charging data from Zapmap Insights.**

Below we have provided a list of links to access free resources that cover charge point location stats and maps, pricing, utilisation of charge points, EV driver behaviour, and EV statistics.

You can also access the latest EV charging news and insights data in our monthly [Business newsletter](#) or by watching regular episodes of [The Charge](#) where our Co-founder and COO Melanie Shufflebotham discusses the latest news and statistics with Zapmap's Head of Insights, Jade Edwards.

1. Charge Point location stats

- [Zapmap Monthly stats on number of public charge points](#) - By power rating, network operator and region

2. Department for Transport Official Statistics

- [Monthly by power rating](#)
- [Quarterly by local authority, location type and power rating](#)

3. Charge point location maps and metrics

- [Zapmap desktop map](#) - Explore charge points by power rating, location type, network operator, and other filters
- [EVA England map](#) - Charge point coverage by constituency and number of EVs
- [Field Dynamics map](#) - Charge point coverage by local authority and households without off-street parking
- [Are we nearly there yet?](#) - EV infrastructure report and dashboard from Cenex and Vauxhall

4. Utilisation of charge points

- [Demystifying charge point utilisation](#) - Report by Green Finance Institute (2024 update)
- [Peak EV charging demand](#) - Report by Climate Change Committee
- [Field Dynamics Mapping Need, Powering Change](#) - Report forecasting future EV energy demands and infrastructure growth

5. Pricing

- [Charging Price Index](#) - Monthly update to the average p/kWh to charge on the public network
- [Rapid charging prices](#) - Monthly update to the top 10 rapid networks' prices in p/kWh

6. EV driver behaviour

- [Free Key Findings Report](#) - Results from the Zapmap Annual Charging Survey

7. Electric vehicle statistics

- [EV market statistics](#) - Monthly stats on the numbers of electric vehicles in the UK
